Dear Alan,

I shall certainly be very happy to participate in the second FASEB Meeting on *Chromatin and Trancription* that you and Dan Gottschling are organizing, June 27 - July 2 1993.

It is an exciting time in this field and I am quite sure you will put together a superb programme.

Good luck with the planning and fund-raising!

With very best regards,

Jean O. Thomas, ScD, FRS
Professor of Macromolecular Biochemistry

Dear Alan:

Thank you for your kind invitation to participate in your 2nd FASEB meeting on "Chromatin and Transcription", June 27 - July 2, 1992, at Copper Mountain, CO. I am delighted to lend my support to your efforts to obtain funding for this meeting and, anticipating your success, look forward to participating.

With best wishes,

E. Morton Bradbury
Professor
Biological Chemistry
